

# GRANT PARK MOMENCE

TELEPHONE DIRECTORY

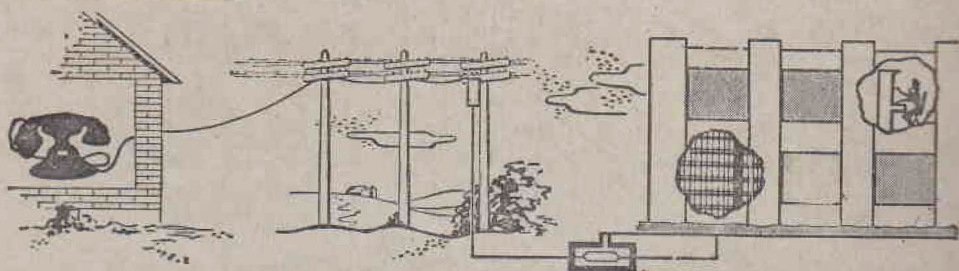

NOVEMBER, 1948

ILLINOIS BELL TELEPHONE COMPANY

PAGES 1 TO 5 CONTAIN HELPFUL INFORMATION ABOUT YOUR TELEPHONE SERVICE  
EMERGENCY NUMBERS ON PAGE 1

# NEEDED — *more than a telephone* TO GIVE YOU SERVICE

1. INSTRUMENTS    2. OUTSIDE PLANT    3. CENTRAL OFFICE

**IT TAKES ALL THREE**

1. Telephone instruments.
2. Wires or cable from the instruments to the telephone central office.
3. Switchboards and other equipment in the telephone central office.

Where there's a shortage of any one of these three, new service can be furnished only as equipment in use is released when present subscribers discontinue their service—or as additional equipment can be manufactured and installed.

## SOME LONG DISTANCE RATES

NIGHT AND SUNDAY RATES APPLY FROM 6 P.M. TO 4:30 A.M. AND ALL DAY SUNDAY  
RATES ARE FOR 3 MINUTES (On Station-to-Station Calls of 25 Cents or Less, 5 Minutes)

United States Government Tax Not Included in the Rates Shown Below

ILLINOIS BELL TELEPHONE COMPANY

F. K. GARTUNG, Manager

# Useful Telephone Information

## "PARTY LINE COURTESY" PAYS

Since telephone equipment is scarce, many of our customers are using party-line service temporarily.

The best party-line service for **all** depends on courteous, cooperative use of the line by **all**. If you're a party-line user here's how you can do your part:

- Listen a moment to make sure the line is clear before you call—try not to interrupt your neighbor's conversation.
- Be careful to replace the receiver after each call.
- Answer your telephone promptly.

## FOR YOUR PROTECTION

For your protection, telephone employees who visit the public, carry identification cards with their names and photographs. If you have the slightest doubt about anyone who calls "from the Telephone Company," **ask to see his credentials**. Telephone people will be glad to show you their cards.

## USE THIS DIRECTORY FIRST

Many calls to "Information" are unnecessary since they are for numbers which are listed in this directory. Every operator and all telephone facilities are needed to handle today's huge volume of calls.

So please don't ask our Information operators to look up numbers unless you are sure they are not listed in this directory. You can get your call through faster by referring to this directory and calling by number.

Your cooperation is appreciated.

## YOUR TELEPHONE NUMBER

Occasionally, in the past, we've had to change some telephone numbers. It may, likewise, be necessary to do so in the future.

We're sorry we can't say to you, "We'll never have to change your telephone number." As a matter of fact, we don't like to change them and won't do it unless it is absolutely necessary.

## LOOKING AHEAD IN THE TELEPHONE BUSINESS

In the months and years ahead, the Bell System intends to go forward providing a service more and more free from imperfections, errors or delays, and at a low cost.

Here's a bird's-eye view of our long range program:

1. Obtaining and installing enough wires, cables, telephone instruments, and switchboards and other equipment in the telephone exchanges to catch up with the growing new demand for telephone service.
2. Hastening the day when we can provide normal reserves of dial and manual central office equipment, cable, wire, poles and telephone instruments—so that we may again meet customers' needs as they arise.
3. Replacing equipment installed on a temporary basis to meet the needs of war and reconversion, with new and better equipment.
4. Improving telephone equipment on customers' premises.
5. Bringing telephone service in all respects back to its pre-war quality and improving it still further.
6. Expanding the long distance network, including provision for television and the use of radio facilities. The Illinois Bell aims to have facilities ready for sending visual images of events to television transmitters wherever they may be located, when telecasters ask for them.
7. Providing more and better telephone service to farmers and others in thinly populated or rural areas.
8. Extending service in such fields as service to motor vehicles, ships at sea and on the rivers, overseas telephone service, etc.

## YOUR OPERATOR EXPLAINS OUT-OF-TOWN CALLS

"I'm your Long Distance operator, and I can connect you with all out-of-town places. From manual telephones just ask your regular operator for 'Long Distance.' From dial telephones dial '0' (Operator).

"Please give me the number of the party you are calling if you know it. Otherwise, I'll be glad to furnish it.

"I will also be glad to give you information about your out-of-town calls—Day, Night and Sunday Rates, and Station-to-station and Person-to-person calls."

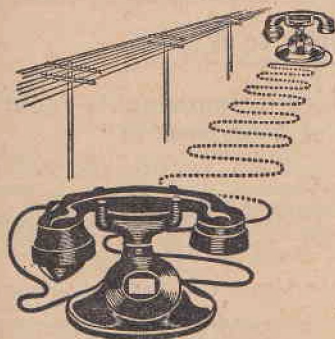

### "LONG DISTANCE"

"The last time we invited you to make more out-of-town calls was away back in 1941.

"Now service is getting back to pre-war speed; once again we can invite you to use Long Distance.

"When you do use it I'll appreciate it if you'll give me the number of the party you are calling. It will help your call go through that much faster."

### STATION-TO-STATION

Place Station-to-station calls when you merely want us to ring a telephone number. Charges begin when anyone answers at the telephone you call.

### COLLECT CALLS

If you place a call "Collect" and it is accepted on a "Collect" basis by the person you are calling, it is paid for by him instead of you. The charges are the same as on a regular Station-to-station or Person-to-person call with one exception: There is a small additional charge on Station-to-station call to telephones in Illinois when the regular rate is 30 cents or less and the telephones outside of Illinois when the regular rate is 20 cents or less.

On calls within the State of Illinois: If the party you are calling doesn't accept the charges, a "Report Charge" applies, to be paid by you. No "Report Charge" is made, however, if you decide to pay for the call yourself.

Momence, Ill.

### PERSON-TO-PERSON

Make a "Person" call when you want to talk to a particular person, or to a particular telephone or department reached through a private switchboard. Rates are higher than "Station" rates, but charges do not begin until the person or department you want is able to answer.

If you call from a point in Illinois to another point in Illinois, a "Report Charge" will be made if the person you want cannot be reached and you ask the operator to cancel the call.

### REDUCED RATES

Between 6:00 P.M. and 4:30 A.M. Monday through Saturday, reduced rates are in effect. Rates are also reduced all day Sunday and on Thanksgiving, Christmas and New Year's. The reduced rates apply to "Station" calls if the initial period rate is more than 35 cents, and to "Person" calls if the rate is more than 50 cents.

# NOVEMBER, 1948

In answering the telephone, the English say "Are you there?" Some people say, "Hello." But in business organizations the correct answer is the name of the company or the department or the name of the individual who answers the telephone.

Oh--wun--fo--wer--siks

siks--too--oh--sev--ven

fi-yiv--ate--ni-yen--oh

fo--wer--th--r-ee--ate--wun

TRY pronouncing the odd little syllables printed above. You will find they sound (and unmistakably) like well-known numbers you use every day.

Now, these words didn't just happen! They are the results of careful speech tests, made to find the simplest and surest sounds for the numerals 0 to 9.

Here they are in order: oh (0)...wun (1)...too (2)...th-r-ee (3)...fo--wer (4)...

fi-yiv (5)...siks (6)...sev-ven (7)...ate (8)...ni-yen (9).

Illinois Bell telephone operators are trained to speak this way because this is the best way to identify numbers with the least chance of error.

Your telephone company aims to give you the finest possible service at the lowest possible cost...even now when it is busier than ever keeping up with the unusual demands.

BE SURE OF THE NUMBER BEFORE YOU CALL

*For That Home-To-Be...*

## PLANNED TELEPHONE SERVICE!

Telephone wiring can be as modern and inconspicuous as plumbing and electrical work *if provisions for it are made before your home is built.*

Concealed wiring through the use of rigid, flexible or thinwall conduit enables you to have *built-in telephone outlets* . . . neat little plates similar in design to electrical outlets . . . wherever you desire.

Conduit placed in walls and floors by the contractor at the time of construction, eliminates exposed wiring on baseboards and moldings and reduces the possibility of interruptions to your telephone service. Costs are nominal and the telephone company provides all wires and wiring work. You merely have the conduit installed.

Your telephone company will be glad to consult with you *without cost or obligation* and make recommendations for built-in conduit. Just call our business office and ask for "Architects' and Builders' Service."

ARCHITECTS, CONTRACTORS AND BUILDERS  
ARE INVITED TO CALL UPON US FOR HELP IN  
PLANNING TELEPHONE FACILITIES.

ILLINOIS BELL TELEPHONE COMPANY

# REGULATIONS

## APPLICATIONS

Applications for original establishment of service must be made on the Telephone Company's standard application forms. Requests from subscribers for additional service, equipment, etc., may be made orally or in writing and upon approval, or installation of the service, must pay a part of the original application. An applicant for telephone service must pay all previous indebtedness to the Telephone Company before service will be established.

## ESTABLISHMENT OF CREDIT

In order to insure the payment of all charges due for its service, the Telephone Company may require any subscriber to establish and maintain his credit in one of the following ways:

1. By furnishing references acceptable to the Telephone Company.
2. By providing a suitable guarantee in writing, in form prescribed by the Telephone Company.
3. By means of a cash deposit.

The Telephone Company may require the subscriber to increase the amount of the deposit at any time if, in its opinion, the charges billed against the subscriber are found to warrant such an increase.

Interest at the rate of not less than 5% per annum shall be paid by the Company on all deposits made for the purpose of establishing credit.

Service may be discontinued for failure to establish credit, as authorized above, within five days after the Company has served or mailed notice requiring the subscriber to do so. Where service has been discontinued for failure to establish credit as authorized by these regulations, the regular restoral charge will be made and collected by the Company.

## OWNERSHIP AND USE OF THE EQUIPMENT

Equipment, instruments and lines on subscriber's premises, furnished by the Telephone Company, shall be and remain the property of the Telephone Company, whose agents and employees have the right to enter said premises at any reasonable hour for the purpose of installing, inspecting, or repairing the instruments and lines or for the purpose of making collections from coin boxes and, upon termination of the service, for the purpose of removing such instruments and lines. Such equipment is not to be used for performing any part of the work of transmitting, delivering or collecting any telephone message where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Telephone Company.

Subscribers must not use or permit to be used any electrical or mechanical apparatus or device in connection with the equipment or facilities furnished by the Telephone Company without the written consent of the Telephone Company, or permit the attachment of any advertising devices, except upon the approval of the Telephone Company. In case any instrument, apparatus or device of any kind other than that furnished or approved by the Telephone Company is attached to or connected with any part of the Telephone Company's property, the Telephone Company shall have the right to remove such instruments, apparatus, or devices or to suspend the service so long as such instruments, apparatus, or devices are so attached or connected, or to terminate the service.

## INTERRUPTIONS TO SERVICE

When requested by the subscriber, if service is interrupted for more than 24 hours, and for causes other than

the negligence or willful act of the subscriber, an allowance shall be made, at the minimum rate for the telephone facilities and class of service affected by the interruption, for such time as the interruption continues. No other liability shall attach to the Company in consideration of such service interruption.

## TELEPHONE NUMBERS

The subscriber has no property right in the telephone number or any right to continuance of service through any particular central office. The Telephone Company may change the telephone number or the central office designation, or both, of a subscriber whenever it deems it desirable in the conduct of its business so to do.

## TELEPHONE DIRECTORIES

Directories regularly furnished to subscribers are the property of the Telephone Company, are loaned to subscribers only as an aid to the use of the telephone service, and are to be returned to the Telephone Company upon request or when new directories are issued. The Telephone Company shall have the right to make a charge for directories issued in replacement of directories lost, destroyed, defaced, or mutilated while in possession of subscriber.

No liability arising from errors or omissions in the making up or printing of its directories shall attach to the Company except in the case of charge listings, in connection with which its liability shall be limited to a refund at the monthly rate for each listing for the time an error or omission continues after reasonable notice in writing to the Company.

## USE OF SERVICE

Subscriber telephone service is furnished only for use by the subscriber, his family, employees, or business associates, or persons residing in the subscriber's household, except as the use of the service may be extended to joint users or to persons temporarily subleasing a subscriber's residential premises. The Telephone Company has the right to refuse to install subscriber service or to permit such service to remain on premises of a public or semi-public character when the instrument is so located that the public in general or patrons of the subscriber may make use of the service.

## PAYMENT FOR SERVICE

The subscriber is required to pay, in accordance with the Telephone Company's established tariffs, collection and billing practices, all charges for exchange service and equipment, and for all toll messages or service rendered to his station, including all toll messages on which the charges have been reversed and accepted by any party at his station. All bills are due when rendered and are payable at the Telephone Company's business offices.

In the event that any sum due (except as provided below) is not paid on or before the 14th day after the issuance of the bill, a written notice may be sent to the subscriber, calling attention to the fact that the amount is due; and, if payment is not made within seven days thereafter, the Company may deny service without further notice.

When the service of a subscriber has been denied in accordance with the preceding paragraphs, but the service has not been terminated or the order to remove the service has not been completed, if such service is restored, a Restoral of Service Charge of \$1.00 will be made. In case service has been denied, in addition to the restoral of service charge, the subscriber will be required to pay all service charges up to the time of restoral of service. Subsequent to the completion of an order to terminate the service, it will be reestablished only upon the basis of a new service application.
